CK2 traits guide pdf download pc

The Chinese also have a strong hand in this start, with their influence slowly reaching west. Don't be afraid to annul marriages that are barren. **EARLY MIDDLE AGES** (1 JANUARY, 769) The earliest start date is by far the most diverse in terms of tech and religion. If you need someone deposed, befriend the most powerful vassals in the Kingdom. This not only mechanically improves your chances of conceiving, but it also helps to ensure that you are not a poor cuckold. Suggested Regions: Western Europe, Western Middle East **THE LATIN EMPIRE** (16 MAY, 1204) The Fourth Crusade failed after it was derailed by a convoluted series of events, resulting in the sack of Constantinople, and the creation of 2 new empires from the ashes of the Byzantine Empire. Let's take a look at a few of the top-rated free PC games, according to Tech Radar and PC Magazine, across a range of genres. Bulgaria, Hungary, and Novgorod face subjugation, as well as the Sultanate of Rum and the Ayyubid Sultanate to the south. League of Legends uses a freemium model where characters rotate weekly, and certain extras cost money. Suggested Regions: Iberian peninsula, British Isles, Southeastern Europe, India **THE IRON CENTURY** (7 AUGUST, 936) Feudalism gained ground in Western Europe and lost ground in the east, but Catholicism has seen a large spread over the previous 70 years, with most of Europe (excepting much of the Iberian Peninsula, of course) now being Christian. Thus, even if your great nation controls the known world but your family loses control over any lands, it's "Game over, man. The only exception to these tips is for fighting the 'bosses' such as the Mongol Hordes, Aztec Invaders, and China. Essentially character based, it simulates the interpersonal nature of politics in the Middle Ages before the advent of nation-states. With 11 different start dates to choose from, the choice can be daunting for even an experienced CKII player. CKII IS AN ARTIFICIAL EVOLUTION CHAMBER Like learning how to breed beautiful flowers, playing CKII also invites the player to generate genetically favourable traits. The game also continues to make an effort to perfect the fan-favorite Master League mode. Unlike some traits which are based on personality and experience (like the virtues and vices), some traits are genetic. Suggested Regions: Eastern Europe, Southeastern Europe, Middle East, Germany **LATE MIDDLE AGES** (1 JANUARY, 1337) The final start date in Crusader Kings 2, much has changed since the last start date. **MORE FROM CONSUMERSEARCH.COM** Out of all of Paradox's grand strategy games, I dare to say that Crusader Kings II is the most unique. Thus, target opponents weaker than you are. Smite also features a rotating roster of free characters that can be permanently purchased with in-game currency or bought in packs with real cash. If you're worried about what a gaming hobby could do to your tight budget right now, we've got you covered. Europe is divided between feudal and tribal states, with many of the tribes also being pagan. If I had remained independent, I would have had no hope against the Caliphate to the South and the Empire to the North. Cutting up one's realm between one's heirs is not only detrimental for larger realms that might split into various Kingdoms (and basically set back all the work you've done), but it might cause rivalries between children. Mercenaries are more unforgiving in CKII than in most other Paradox games so be careful. Related: Read our complete CK2 DLC guide The game is all about building and cultivating loyalty and leading through awe rather than mere power. The Bahri Sultanate is the newest power in the Middle East, but they are still threatened, much like Northern Europe, by the Ilkhanate. This is a great start if you like participating in Holy Wars, as one is served up and ready to go right from the start. By capturing only one castle and squashing the rest of the armies, you could sometimes force a peace. The Seljuks have also begun expanding north, east of the Caspian Sea. This presents an interesting dichotomy, as many early feudal states will have access to heavier and better tech troops, but tribal governments can call in vast numbers of men to fight. In Anatolia, The Byzantines have reformed from the ashes of the Latin and Nicene Empires, but the Ottomans have also appeared, ready to seize prominence. And while the Germanic, Slavic, and to an extent the Romuva religions have been reduced in Eastern Europe, a great amount of Northern European tribes still follow the Suomenusko faith, butting up against the Orthodox Kievan Rus and Novgorod. Once you have control of most of the realms of your religion, that's when you can focus on genetic supremacy. Take note that you ought not pursue an enemy army too far into enemy territory as attrition will kill you. The game is played from a third-person perspective, making combat feel much more dynamic. And back west in Germany, the Hanseatic League is being formed by Lübeck and Hamburg. **MORE FROM QUESTIONSANSWERED.NET** Photo Courtesy: Adobe Stock Gaming isn't just for specialized consoles and systems anymore now that you can play your favorite video games on your laptop or tablet. When it comes to escaping the real world and killing a little time, it's hard to beat the magic of some PC gaming. Photo Courtesy: @FortniteGame/Twitter Even if you aren't playing with friends, it's easy to find a match to join, and the game is highly addictive. Both are relatively much weaker than the Byzantines were, so there is a power vacuum in the area to fill, either from the 2 new empires, or from a nearby upstart. This is also a great way to accelerate cultural assimilation as you can choose a top tier vassal of your culture to lead the new viceroyalty or duchy. It's easy to check by looking at their ruler and seeing how many levies they can raise on their character profile. Elsewhere, the Byzantines continue to be the centre of technological innovation, but are faced by the Seljuk Sultanate, who separate the west from the east. Expect many religious wars and Viking raids, as well as expansion from the Eurasian Steppe hordes. This hoarding also applies to Bloodlines. Photo Courtesy: @LeagueOfLegends/Twitter The game rewards careful tactics and good teamwork and is always free to play, but if you want to keep your character for a week or add any special features and enhancements to your game play, you will have to pay a fee. Meanwhile, further to the east, Delhi stands in a good position to take over India as a whole if they so choose. Suggested Regions: Southeastern Europe, Northeastern Europe **THE THIRD CRUSADE** (1 JANUARY, 1187) Forces from the 3 great Catholic realms from Western Europe (England, France, and the Holy Roman Empire) are marching east in a Crusade to fight off the Ayyubid Sultanate from Jerusalem. Avoid bad traits and bolster good traits. **SOMETIMES, REBELLION IS A GOOD THING** Strange, you might say. The fun of gaming gets even better when you find games you love that you can play for free on your PC. League of Legends League of Legends is one of the most highly played multiplayer online battle arena (MOBA) games available for the PC. Each character has its own set of weapons to use during a match. Related: The best strategy games on PC Learn how to eliminate your rivals and to be selective about who you place in power even if they have great stats. Not too bad for a lowly Count to accomplish in the span of twenty years. However, keep in mind that you don't need to worry so much if it's another family member that is being favoured. **WINNING WARS IS SIMPLER THAN YOU THINK** Unlike other Paradox titles which require you to strategically deploy troops against fortresses and achieve wargoads, CKII rewards a player for winning decisive engagements. **INDEPENDENCE IS OVERRATED; CONQUER FROM WITHIN** Sun Tzu said that to defeat your enemy through great strength is not the onus of Supreme Excellence; Supreme Excellence is to defeat your enemy without lifting a finger. Instead, as soon as I had control of the crown, I bent the knee to Charlemagne who was all too happy to be my overlord. by Nintendo. If you can get your religious head to be on your side to grant you an annulment, do not hesitate. Of note, the Khwarezmid Sultanate have burst onto the scene in Central Asia, neighboring the now huge Ghurid Empire in India. Simply win over the appropriate people to get your job accomplished. **SUCCESSION YOUR WAY TO SUCCESS** Unlike other games both in Paradox's stable and outside of it which tie your fate to a nation, in CKII, your fate is tied to a particular dynasty—and, more specifically, to one person at a time in that dynasty. If possible, learn how to consistently include these genetic markers into your family line. The game does provide opportunities to earn game currency as you play, which you can then use to purchase champions. Instead, by working from within, I was crowned by the Pope. Well, one of the best parts about the game is that you can play with your friends — regardless of which platform they have, PC or gaming console — so get ready for some "friendly" backstabbing. For example, if you need someone dead, befriend their spymaster. To that end, my liege, whether you're a new count or a battle-scarred crusader king, allow me to offer some of the most important tips for the novice and veteran alike. Photo Courtesy: eclipse images/E+/Getty Images With the world still dramatically slowed down due to the global novel coronavirus pandemic, many people are still confined to their homes and searching for ways to fill all their unexpected free time. CK2 **START DATES** Crusader Kings II can see a player starting off at many points over its 700+ year timespan, on one end with a Europe still seeking to find solid ground after the fall of the Western Roman Empire, and on the other with recognisable power players that would dominate the globe for the next 500 years. This is especially important if you're starting a custom character which has no dynasty to rely on. This is an excellent start for those who wish to continue their game into EU4, as there are only about 100 years between 1337 and the end date of the game. The Latin Empire sits on the west of the Bosphorus Strait, with the Nicene Empire occupying the east. Focus on quality of characters rather than quantity. Like League of Legends, Brawlhalla engages in a weekly rotation of playable characters, but you can always purchase your favorites using in-game currency you collect as you play. However, if backdoor scheming and trickery is more your style, there are plenty of options for inter-realm mischief in large European powers, such as the Holy Roman Empire. Which leads us to our next major tip... **ELECTIVE MONARCHY ISN'T SO BAD** So long as you can control the majority of the electors through diplomacy or intrigue, Elective Monarchy almost always ensures that you select the best possible heir for your realm. After all, how can a realm breed with no heir? Suggested Regions: Central Asia, Middle East, Eastern Europe **RISE OF THE HANSA** (1 MAY, 1241) The Mongols, now split into the Golden Horde, the Ilkhanate, and the Khaganate of Mongolia, have lost their forward steam, but have expanded vastly over the previous 21 years. Wait until the doomstack is visible and then pursue it on your territory. Each year, new editions don't necessarily offer many new features versus previous years, but they do tend to introduce gaming improvements like better dribbling and player responsiveness. The only exception is if you're hoping to get a claim on your spouse's demesnes. However, finding the right PC gaming controller can take your games to the next level for an experience you'll enjoy over and over. That means there's could be loads of new wannabe rulers needing advice on how to navigate this titan of a strategy game, and we're here to help. Which dovetails nicely into one of the most important parts about managing your court. Realms are often unstable after a new ruler ascends and Elective Succession Law helps to alleviate this concern by choosing younger candidates who reign far longer on average. The Caliphate to the south would not dare entrench themselves in a war against a whole empire so I was safe to scheme from within. Similarly, the presence of the Germanic and Slavic religions in Europe changes the dynamic of diplomacy. Screenrant gave this fighting game a "Very Good" rating. Almost always fight those significantly weaker. While still tribal, they have such large numbers that they are almost impossible to initially defeat. Similarly, India in general is a great place if you are looking for extra-realm conflict, with several large and powerful kingdoms packed into a tight box. You will want to actively kill, exile, or otherwise bribe electors who don't support your candidate or 'eliminate' your rivals that aren't your ideal candidate. The problem, of course, is that Elective Monarchy is high risk high reward. Brawlhalla The "brawl" in Brawlhalla pretty much says it all for this fighting game that is similar to the popular Super Smash Bros. PC Gamer rated Smite an 86 out of 100, with particularly high marks for its arena combat. The previously fearsome Abbasids have meanwhile fallen from grace, and the new power in the MENA (Middle East and North Africa) region is the Fatimid Empire, who look to expand into former Abbasid territory. **TARGET CHARACTERS, NOT INSTITUTIONS** You don't need to win over everyone. Matches take place between five-person teams that focus on destroying their opponents' bases and towers. However, here are some nuances: Make sure your spouse loves you. Whenever you win against a faction or vassal in a war, you can strip their members of one or two titles without suffering penalties and, thus, install one of your loyalists (preferably family members) in their place. These entities with their special 'event troops' don't suffer attrition and are generally of higher quality troops. These include Genius, Tall, Strong etc. Not long after Crusader Kings 3 was first announced, CK2's base game was made free for everyone. France and England are set to begin a very long series of wars with each other, and in the Iberian peninsula, Castille, Aragon, and Portugal have emerged, but there is still a Moorish influence on the southern end. Huge amounts of 'warscore' is awarded if you manage to defeat an enemy 'doomstack' (their combined armies in one location); sometimes by as much as fifty percent. Perhaps the best way to explain this tip is to give you an example from one of my playthroughs: I started as a lowly count of Santiago who managed to wrest control of the Kingdom of Asturias. Photo Courtesy: @SMITEGame/Twitter Pro Evolution Soccer 2018 Lite Pro Evolution Soccer (PES) is one of the bestselling video game franchises of all-time around the world. Since I was already a Kingdom with various demesnes, I was one of the most powerful vassals of the Emperor and set to work befriendng enough nobles in the Empire to be crowned Emperor not too long after. In the north of Europe, Novgorod and Sweden have become dominant regional powers, both threatened by the still dangerous Golden Horde. Avoid fighting those with similar sized armies if you can help it since chance may easily turn your party into a route. Not too much else has changed (it has been only 3 months), but players should also look to the Iberian Peninsula if they miss the good religious and cultural conflicts between realms of the earlier starts. Luckily, gamers just like you have rated and reviewed controllers, and here are their favorite options. Finally, and perhaps most 'importantly', change succession laws. This is a good start for those who love figuring out how to handle a great crisis that can leave you subjugated or dead very quickly, if you are in the Mongols' way. This is the radial ideal of Medieval Imperial ambition. Just be aware that divorcing your spouse will enrage their family against you. To be truly successful in this game requires more than just careful logistical planning of troops and supplies; it also requires navigating the trials of courtly life. Thus, with no fortresses to get in the way of mobilisation, squash the enemy army first, attain a massive advantage in warscore, then while the enemy army is trying to regroup, capture enough castles to force a peace. If you can be sure of winning a civil war by inciting a faction against yourself, you can actually eliminate the power base of rival dynasties. The nomads of the Eurasian Steppe still pose a threat to their neighbours, but especially as the previous large regional power, the Abbasids, have lost much ground since the previous start. Or, head on over to our Crusader Kings 3 beginners guide and review. If you're new to the Crusader Kings series and still haven't decided which one you'd like to start with. There are so many different types of PC game controllers that it can be tough to find the right one. Suggested Regions: Western Europe, Northern Europe, Eastern Europe, Middle East, India More like this: The best 4X games on PC Hopefully, these should have you well on your way to creating and empire and dynasty to echo through the ages. Some teams and stadiums are only available with the paid version of the game, but fan favorites like FC Barcelona and Manchester United are included. Suggested Regions: England, Southeastern Europe, Northern Europe **WILLIAM THE CONQUEROR** (26 DECEMBER, 1066) Fast forward 3 months, and England is now being run by Normans. Which leads us to our next tip. Think that sounds bloodthirsty? At the start, they are poised to cut a bloody path through the Khwarezmid Sultanate and much of Eastern Europe. You cannot count on another European liking you, because you may be the wrong religion. Learn how to properly prune out factions in your realm by targeting opponents and inciting them to rebellion by getting reasons to arrest them and attempting to arrest them with an intentionally low chance of success forcing them to raise arms against you. Gavelkind is perhaps the worst possible succession law ever invented by man. The diplomacy bonus to it is significant enough to be a good focus in and of itself while helping you to conceive children. In this game, you must coordinate with your teammates to destroy the opposing team's base. Also to note is that England owns a decent chunk of France now, leading to much conflict in the coming years. All the advice below is correct as of the most recent patch with all expansions. Lavish him or her with gifts and other favours that will entice them to your side. Photo Courtesy: @officialpes/Twitter The "Lite" version of Pro Evolution Soccer is free and gives players access to the Online myClub and PES Matchday Mode in addition to playing in Local and Co-op Matches and honing their skills in Training Mode. Suggested Regions: Western Scandinavia, Iberian peninsula, Himalayas, Caucasus **VIKING AGE** (1 JANUARY, 867) Catholicism and feudalism have spread eastward in Europe, in large part thanks to the successor kingdoms to Charlemagne's Francias. This is a new starting point, recently delivered as free DLC, and it centres around the Germans setting out a-conquering in Central Europe. Photo Courtesy: @Brawlhalla/Twitter Smite Smite is another popular MOBA, this one with its champions being gods from ancient pantheons and classic myths. There's no real harm in Family focus for a longer period while you wait for heirs. Whether it's pure elective monarchy or the Imperial style of elective, I have found that this succession law helps to select not only well qualified rulers based on stats and traits (while avoiding those inbreds, of course), but also grants you the ability to choose young rulers which is essential for building up that long term legacy. The sweeping, human narratives and dramatic turns blur the line between RPG and strategy without ever losing its 'grand' pedigree. Focus your money on those who have influence and focus your military forces on those who are weak and you will find yourself rising to the heights of power. The game dumps you into a world with 99 other players, where you engage in a free-for-all battle until only a single player is left standing. Usually, most armies are equivalent in strength so determining by numbers is easy enough. Related: The best Crusader Kings 2 mods Most of the time, accomplishing this task is simple: get married (make sure it's matrilineal if you're a woman), have children, and sit pretty as you hope your children aren't idiots. For the east of Europe, this is what a post-apocalypse scenario looks like. Yet, I have often intentionally triggered civil wars for myself. Don't be too hung up if your ideal heir is not selected so long as he's of your blood. This is, of course, assuming you can defeat the enemy army. You fight in competitions with up to four players, and the ultimate goal is to knock your opponent out of the arena to score points. Why? Keep in mind that you can also raise your levies and position them in their demesnes even before you send out the arrest order so you can have a huge mobilisation advantage over your opponent right in the beginning. Unfortunately, the Muslim neighbours to the south were poised to destroy my tiny Kingdom. This is especially useful if you're looking to replace cultures. Suggested Regions: England, Iberian Peninsula, India **THE ALEXIAD** (1 APRIL, 1081) The mighty Byzantines have begun their historical fall from grace, with the Sultanate of Rum seizing much of Anatolia from the Byzantines. Finally, in India, the Tughluq Khaganate is in control of much of the subcontinent, but the Yuan and the Ilkhanate are both in a prime position to threaten the Tughluq. Fortnite Fortnite is arguably the most popular of the Battle Royale games to hit the tech world in quite some time. Always avoid detrimental genetic traits like inbred, but, keep in mind, that choosing between a spouse that might be great genetically and one who has no negatives but is the heir or heiress to a title, it's almost always better to choose to pursue the title to expand your realm. Game over." Securing that your titles are succeeded by someone in your family becomes your most primal concern at the start of the game and securing that your family succeeds to titles as it grows is one of the best strategies to "peacefully" acquire more control. Don't expect to master the complexities of this game overnight, but the action starts as soon as you click the "play" button. Thus, learn how to 'politic' your way to power. This start is very close to the following start, the main difference being that this start features the 3-way war for England between the Anglo-Saxons, the Norwegians, and the Normans. We'll give you a quick rundown of what each of the start dates are like, plus point you to interesting areas to jump into. Suggested Regions: Southeastern Europe, Central Asia **AGE OF THE MONGOLS** (1 FEBRUARY, 1220) The Mongols have entered the picture, with huge event-spawned stacks appearing at the eastern edge of the map. So long as your dynasty is on the throne, that's sufficient and the electors will never pick someone so bad that you'll immediately be beset by civil war. However, even with Christianity strengthened, Germanic Viking hordes are on the loose in Northern Europe. Suggested Regions: Central Europe, Western Scandinavia, North Africa, Eastern Europe, Central Asia **HIGH MIDDLE AGES** (15 SEPTEMBER, 1066) This is the classic starting point; Europe is defined less by a variety of government types and religions, and more by many large realms that are uniformly feudal and Catholic (as always, of course, excepting the Iberian peninsula, and also Eastern Europe). If gathering resources, building structures and shooting at your enemies is what you look for in a game, Fortnite is the game for you. If you can't find someone significantly weaker, either wait until they are involved in another war with a powerful opponent, raise religious levies against them if they're of another religion, or build up a massive war chest to employ mercenaries. Defeating them is the true test of a crusader king and requires careful planning and preparation.
